

My dear Sir-

I have made enquiries on the subject of diffusion's big figures. It seems that the Communal Museum to which it belongs does not consent to

lend it - so I am afraid it must be struck off the list. I have made arrangements for sending the tiger group prominent - If there is anything else I can do let me know shortly. I am sending you photographs of my electric candelabra. It is an effort to bring sculpture into urban modern life a hobby of mine, which has so far met with little encouragement. I would willingly

do a thing of that sort free of cost for any municipality willing to undertake the casting.

Yrs
very sincerely
Jaques de Salans
